Specifications for Paraffin Wax

Parameter	Value
Molecular Formula	---
Mol Wt	---
CAS #	[8002-74-2]
Description	White translucent waxy odourless smooth mass
Solidification point in deg cel	58-60
Sulphated ash (%)	0.1 max
Oil Content (wt%)	report

Uses

Industry	Application
Paper	In mfr of paraffin paper and candles In water-proofing of paper
Wood	In water-proofing of wood and cork
Coating	In manufacture of varnishes
Floriculture	In extracting perfumes from flower
Cosmetics	In cosmetic formulations
Pharma	As stiffening agent in formulations
